

TENNESSEE DEPARTMENT OF CORRECTION

ANNUAL REPORT
FISCAL YEAR 2001–2002

Don Sundquist, Governor
Donal Campbell, Commissioner

The Tennessee Department of Correction Fiscal Year 2001-2002 Annual Report
was coordinated and published by:

Planning and Research Division

Gabrielle L. Chapman, Director
Lois E. Holt-Cooper, Coordinating Editor

| |
|---|
| Planning and Research extends its gratitude to all departmental staff who assisted in the gathering of information and data used in this publication. |

OFFICE (615) 741-1000 Ext. 4001 FAX (615) 532-8281

DONAL CAMPBELL
COMMISSIONER

October 1, 2002

The Honorable Don Sundquist
Governor of Tennessee
and
The General Assembly
State of Tennessee

Ladies and Gentlemen:

It is my pleasure to present to you the Department of Correction's annual report for Fiscal Year 2001-2002. I hope that you will take a few moments to review the information and statistical data it contains.

Listed below are a few highlights that I am pleased to bring to your attention:

- Based on preliminary estimates, the department anticipates reverting approximately \$17.5 million to the State General Fund.
- During this fiscal year, the department added 256 female beds with new construction and 170 beds at NECX by double celling previously single-occupancy cells.
- The overall incident rate, since FY1997-98, has actually remained relatively steady.
- The violent incident rate has continued a pattern of decline. The violent incident rate for 2001-02 is 28.2% lower than the reported FY1999-2000 rate and 35.5% lower than the reported rate in FY1997-98.
- The number of inmates in TDOC custody increased by 1.1 percent, from 17,565 on June 29, 2001, to 17,757 on June 30, 2002.
- \$889,600 in savings is anticipated (over the ten-year life of the equipment) from the installation of new telephone systems.
- The addition of a Director of Pre-Release and Transition Services during the fiscal year is the first step toward implementation of our enhanced offender transition program, the goal of which is to reduce recidivism rates in Tennessee.

This department continues with initiatives to reduce the cost of institutional operations while maintaining the accredited status of all sites through the American Correctional Association.

The progress this department has made continues to reflect the quality and dedication of our staff, and the support of the Governor and the General Assembly. We will continue to seek ways to fulfill our mission of supervising convicted offenders in the institutions at the lowest possible cost to the State.

Sincerely,

A handwritten signature of Donal Campbell in black ink, written in a cursive style.

Donal Campbell

MISSION, VISION, VALUES

MISSION

The mission of the Tennessee Department of Correction is to ensure public safety through incarceration of convicted felons; enhance inmate life skills through selected rehabilitative programming; and make implementation of cost-effective measures a clear priority.

VISION

The TDOC will be an organization where employees are:

empowered in the decision making process,

involved in the improvement of individual knowledge and skills, the workplace and society, and

committed to providing a safe and humane environment and to assisting offenders by providing opportunities for positive behavioral changes.

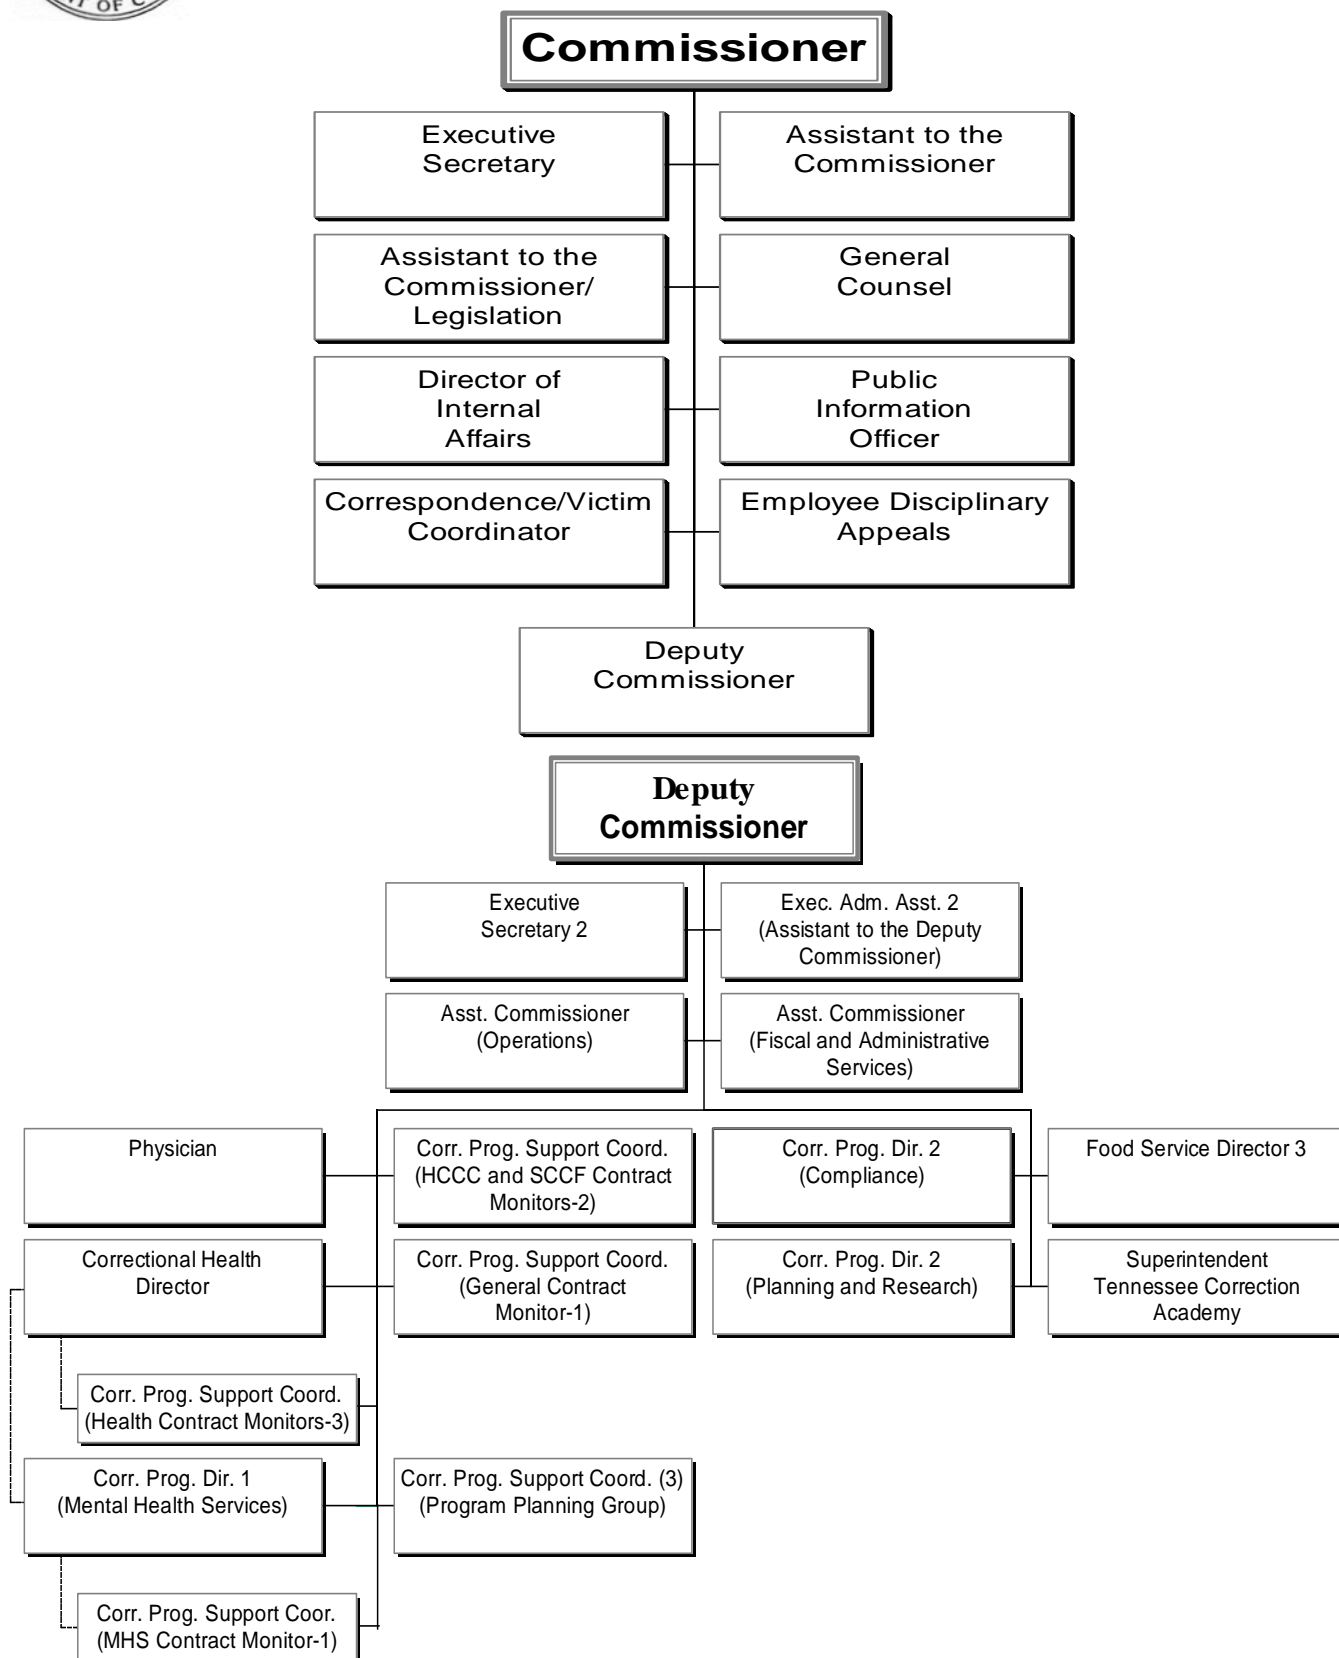

VALUES

The TDOC is committed to continuous improvement by working toward a common goal. All employees are encouraged to be flexible, creative, and responsive in meeting the needs of those they manage.

Fair and ethical treatment of convicted felons, respect for fellow employees and the general public and openness in both internal and external relationships are essential components in effective management of the Tennessee Department of Correction.

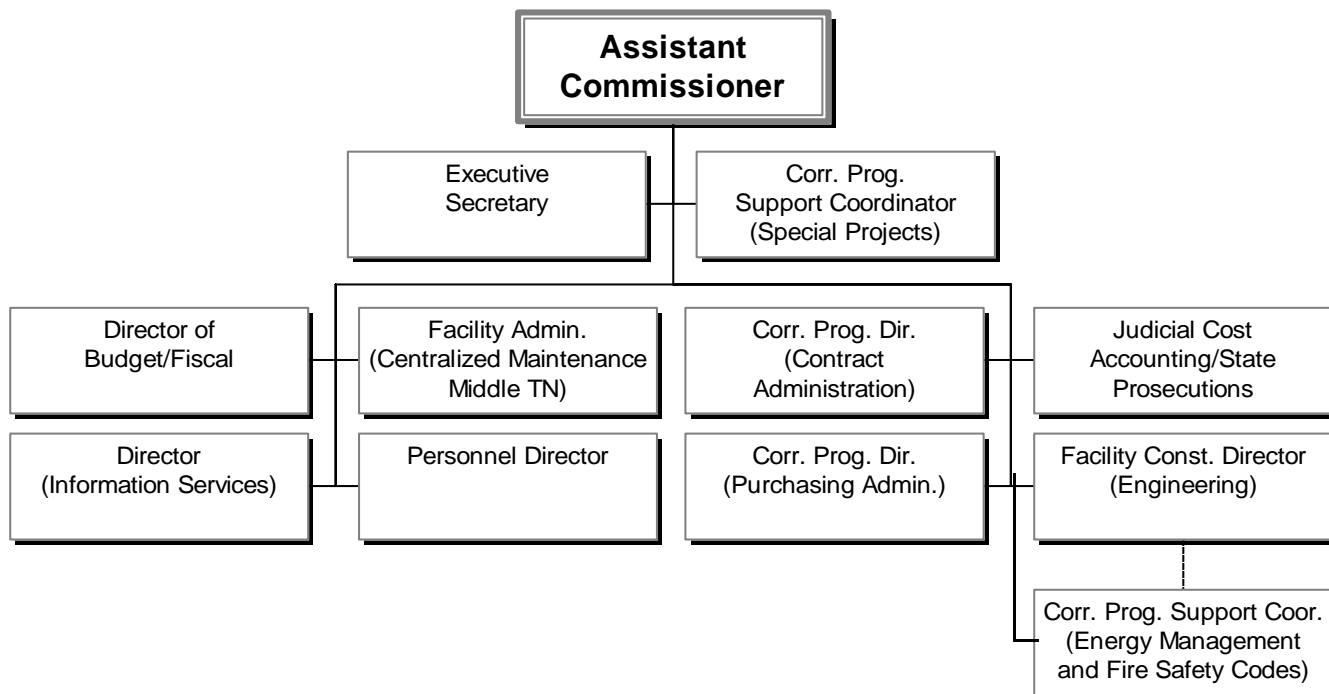

ORGANIZATIONAL CHARTS

ADMINISTRATIVE SERVICES

OPERATIONS

COMMISSIONER'S DIVISION

SECTION I COMMISSIONER'S DIVISION

EMPLOYEE GRIEVANCES AND DISCIPLINARIES

The Employee Grievance section is a departmental resource that helps employees with respect to correct procedures for resolving grievances, and provides assistance to managers in establishing consistent actions. Quarterly reports are available to aid in establishing consistency in employee disciplinary actions by allowing personnel to better monitor cases and provide feedback to the field. Classes focusing on civil service concepts, disciplinary actions, and grievance procedures are conducted for senior managers at the Tennessee Correction Academy.

During Fiscal Year 2001/2002, a total of 176 grievances were submitted. Of these, 126 were upheld, 30 decisions were overturned, 11 were deemed non-grievable, and 9 were resolved without a hearing. There were 35 written warnings submitted for review during Fiscal Year 2001/2002.

Table 1: Employee Grievances Fiscal Year 2001-2002

INTERNAL AFFAIRS

The Internal Affairs Director and investigators are commissioned peace officers who conduct administrative and criminal investigations related to the operation of the department as authorized by the commissioner. These processes allow the commissioner to more effectively monitor and gather appropriate data to provide a safe environment for the employees, inmates, service providers, and all citizens served.

It is also the responsibility of Internal Affairs to develop and maintain a functional working relationship with local, state, and federal law enforcement agencies. This connectivity maximizes the use of resources which promote effectiveness and proficiency in serving the department and the citizens of Tennessee.

The Director of Internal Affairs, and through him the investigators assigned primarily to one of the three grand divisions of the state, reports directly to the commissioner. The arrangement ensures clear lines of responsibility, authority, consistency, and justice in the investigative and disposition processes.

LEGISLATIVE LIAISON

The assistant to the commissioner for legislation serves as the liaison to the governor's office and members of the General Assembly concerning proposed legislation that might impact the operation of the department. The liaison advises the commissioner and TDOC staff of bills being considered and coordinates the department's review of pending legislation. The liaison also monitors the implementation of new laws and informs staff of statutory changes and possible revisions to department policies.

During the 2002 session, the General Assembly approved legislation authorizing the TDOC Internal Affairs director and his investigators to carry weapons off of departmental grounds while conducting authorized investigations and assisting federal, state, and local law enforcement. Firearms training requirements were also included in the new law.

Also passed during the session was a bill relating to employee exposure to infectious diseases by inmates. It requires disclosure of an inmate's test results for bloodborne pathogens to the exposed correctional employee or law enforcement officer no later than 24 hours after the test results are known by the proper correctional officials.

The General Assembly also voted to allow vested correctional officers employed by the department to request a state identification card to be issued by the Secretary of State as proof of authorization to carry a firearm at all times in accordance with current law. Under this act, the following provisions will apply: (1) The Secretary of State will issue the card after verification by the commissioner of the officer's vested status and employment. The card will remain valid as long as the correctional officer remains vested and employed by the department; (2) If the officer resigns, is terminated, or is otherwise no longer employed by the department, the commissioner will notify the Secretary of State within 10 days; (3) The Secretary of State will send a letter of revocation to the former correctional officer, who will have 10 days to return the card; (4) An officer who knowingly fails to surrender the card commits a Class A misdemeanor punishable by a fine of \$50.00.

The Governor signed into law the "Inmate Family Visitation and Crime Reduction Act". This act requires the department to maintain a visitation program that includes designated visitation areas at each facility, and provide information in each area relating to visiting regulations, procedures, and dress code. The commissioner may

COMMISSIONER'S DIVISION

deny visitation to visitors who do not comply with visiting procedures. The act further requires correctional officers assigned to visitation areas to be trained in effective communication skills. The department is encouraged to provide an area for child visitors. The department is to report annually to the Select Oversight Committee on Corrections on the status of the visitation program.

Legislation creating the Victims of Crime State Coordinating Council was passed during the session. The commissioner of correction will serve as one of the members of the council.

The Tennessee Community Resource Board was extended to 2008, and the TRICOR Board was extended to 2006 with the passage of sunset legislation.

A joint resolution was adopted creating an interagency coordinating council to study and develop policies and plans related to the prevention of hepatitis within prisons and the services for those inmates in prison who have hepatitis. The council representative from the department will serve as chairperson.

OFFICE OF THE GENERAL COUNSEL

The Office of the General Counsel represents the department and the commissioner in legal and administrative proceedings in which the department is a party. In addition, the office drafts administrative rules, reviews and recommends changes to departmental policies, provides legal opinions on issues affecting corrections, reviews contracts, administers the interstate compact on detainees and the interstate corrections compact, coordinates the extradition process in Tennessee, reviews proposed legislation, and assists the Office of the Attorney General and approved private counsel in the defense of departmental employees sued by inmates for alleged constitutional civil rights violations. Approximately 550 inmate civil cases are currently pending involving the department. The office also provides assistance to the Office of the Attorney General in defending the state against claims filed in the Tennessee Claims Commission.

The Office of the General Counsel also provides assistance, recommendations, and training to institutional administrators and staff on a daily basis regarding correctional issues and the effect of changes in all areas of the law upon the operations of the department.

PUBLIC INFORMATION OFFICE

The Public Information Office is the central point for communication with the public and media about the Department of Correction. The office consists of a Public Information Officer (PIO), who is the designated spokesperson for the commissioner and the department.

The PIO answers questions from the media and the public and distributes information about a wide range of topics relating to the department, such as death row, departmental statistics, policies and privatization. The PIO supervises the department's web page and answers inquiries from the public submitted through the internet. The PIO also provides internal support by conducting media seminars for department employees.

The department receives inquiries from all over the world, but the majority of information requests originate from the approximately 600 media outlets in the State of Tennessee. Assistance is also provided to the music and film industries for both music videos and films produced at selected adult facilities and the Tennessee State Penitentiary, which is frequently used for its historically significant architecture. In 2001, the department worked with the Film, Entertainment and Music Commission for the production of the major motion picture

COMMISSIONER'S DIVISION

entitled, "The Last Castle", starring Robert Redford, at the old Tennessee State Penitentiary.

The Public Information Officer coordinates the media relations for twelve (12) state-owned adult facilities and the training academy. The PIO also assists with media relations for the two privately operated facilities that house TDOC inmates.

The most requested topic of information in FY2001/2002 concerned death row. The Public Information Officer continues to receive media requests for interviews with TDOC inmates including those on death row.

DEPUTY COMMISSIONER'S DIVISION

SECTION II DEPUTY COMMISSIONER'S DIVISION

COMPLIANCE

Accreditation - The department continues to maintain its accredited status. One institution, Central Office, and the Tennessee Correctional Academy had successful American Correctional Association (ACA) audits during FY2001/2002. Corrections professionals from prison systems outside Tennessee evaluated these sites and found them to meet or exceed nationally recognized standards. TDOC's commitment and ability to comply with the ACA standards result in a safe and constitutional environment for offenders and employees, and institutions that are operationally sound.

Mock audits of applicable sites were conducted by the accreditation section to evaluate operational quality and the caliber of the documentation in the accreditation files prepared for the audit teams. Compliance staff participated in all ACA audits, providing technical assistance and support to the institutions and ACA auditors.

Annual Inspections - During FY2001/2002, all TDOC and privately operated institutions and the training academy were fully inspected by a team of 10-15 inspectors consisting of personnel from the institutions and central office. The inspections were completed utilizing an inspection instrument designed to monitor policy compliance in each area of the facility's operation.

A summary report was prepared by the Compliance section detailing deficiencies for the warden or superintendent. The local manager responded with a corrective action plan and a reinspection was performed where necessary. The annual inspection process is a cost efficient monitoring mechanism that contributes to the operational quality of the department. Ninety-four percent of all items evaluated were in compliance with policy mandates for FY2001/2002.

Internal Audit - During FY2001/2002, Internal Audit conducted general fiscal audits of every TDOC institution and the training academy. The goal was to identify and correct fiscal problems prior to any significant loss to the state. Audit reports were submitted by the compliance section to each site to provide the institution's management an opportunity to respond and correct findings. Additional program/fiscal evaluations were performed as directed by the commissioner or deputy commissioner. Reports were filed with the appropriate individuals and follow-up meetings were conducted by assistant commissioners to reinforce corrective action. Internal Audit contributed to sound fiscal practices in the institutions.

FOOD SERVICES

The Food Services division coordinates the food service operations in all TDOC managed correctional institutions. This division also works with the State Food Service Board of Standards, which administers the cook/chill program, and with other correctional facilities in and outside Tennessee on issues relating to food service. Advice and instruction are provided on operational matters such as controlling food costs, food preparation, receipt of food, compliance with nutritional guidelines, and sanitation. Institutional visits and annual inspections monitor compliance with TDOC policies and ACA standards.

The Tennessee Department of Health inspects all food service operations. All Food Service managers and assistant managers are Hazard Analysis of Critical Control Points (HACCP) and ServSafe certified. TDOC Food Service continues to work diligently toward the goal of all food service stewards receiving their HACCP and ServSafe certification. All new employees are scheduled to attend classes as soon as possible.

All TDOC managed institutions are required to fully participate in the cook/chill program. The Department of Correction purchased 15,425,234 pounds of product for a total of \$8,713,334.31 from the production center during the FY2001/2002.

TDOC facilities utilized \$39,478.40 in USDA commodities. TDOC received a total of \$137,333.58 from the School Nutrition Program. Each institution used TDOC farm produce in order to decrease overall food cost.

TDOC Food Service successfully completed the Administrative Review conducted by the School's Nutrition Program. The successful completion of this review allows TDOC to continue receiving funds from the School Nutrition Program. The next review will be conducted in the year 2006.

During FY2001/2002, approximately 16,562,442 meals were served at a cost of \$4.41 per day per inmate, including food, labor, supply, and cook chill overhead costs.

HEALTH SERVICES

Health Services is responsible for the overall planning, coordination, organization, and monitoring of the department's provision of health care. Our services are designed to coordinate and integrate each patient's health care needs. This function includes policy development, consultation, and technical assistance to institutional health care staff. The staff of the Health Services section includes registered nurses, contract monitors, a physician, and administrative staff who enhance the section's ability to evaluate the provision of services by TDOC contractors.

The Director of Health Services receives and compiles data monthly from institutions and contractors who provide services to the department. The data is used to evaluate and monitor trends in the delivery of health care and to make fiscal management decisions for allocating health services resources.

Each institution has an on-site contract physician and other qualified licensed health care providers. Patients requiring specialty physician care are generally referred to the Lois M. DeBerry Special Needs Facility that provides a range of specialty clinics on-site. The Health Care Center at Special Needs also provides 104 sub-acute nursing care beds for patients requiring pre-operative, post-operative, convalescent, or palliative care. Metropolitan Nashville General Hospital maintains a secure 14-bed acute care unit exclusively for TDOC patients. The medical contractor also provides specialty care at Nashville hospitals and medical clinics that cannot be provided at the DeBerry Special Needs Facility.

DEPUTY COMMISSIONER'S DIVISION

MENTAL HEALTH

All incarcerated offenders have access to mental health services upon determination of need by staff. All of the state's correctional facilities have the ability to provide a range of clinical as well as non-clinical interventions. Services include, but are not limited to, mental retardation services, psychiatric in-patient/out-patient care, medication management through psychiatric intervention, individual and group counseling designed to address a range of mental disorders, psychological/psychiatric assessment and evaluation, intensive sex offender treatment, etc.

Some mental health programs are provided in a therapeutic community setting. The utilization of a therapeutic community model allows staff to intensify service delivery while in the confines of a more therapeutically controlled environment. The majority of programs are provided in designated areas within the institution.

The delivery of services is governed by state and federal standards, TDOC mental health policy, and American Correctional Association (ACA) standards. The quality of service delivery is monitored through annual inspections, quality improvement studies, site visits, and vendor utilization reporting. A mental health contract compliance monitor is now in place. This person routinely monitors various aspects of the department's behavioral health contract.

TDOC's two primary psychiatric treatment locations are:

DeBerry Special Needs Facility - This facility can serve 320+ mentally disordered offenders, including a 64-bed intensive sex offender treatment program, a 24-bed pre-treatment sex offender program, and a 32-bed cognitively challenged sex offender program.

South Central Correctional Facility - This facility offers transitional services for offenders discharged from DSNF and other offenders within the system who require sheltered psychiatric care in an environment less restrictive than DSNF.

Both facilities make their services available to the entire adult correctional system.

The department is actively involved with state and community behavioral health care agencies and universities, addressing issues such as community transition and treatment outcomes.

During FY2001/2002, there were more than 501 reported instances of patients transitioning through some form of therapeutic isolation. Approximately eight percent of each TDOC facility's population was receiving some type of psychiatric medication during this period. DSNF, MLCC, and TPW have a greater psychiatric drug utilization due to their population/mission. During any given month, 19 to 35 percent of the population of these facilities were receiving psychiatric medication.

During FY2001/2002, the TDOC Treatment Review Committee was called upon 66 times to review cases involving involuntary treatment interventions. An average of 37 TDOC patients had court appointed conservators during FY2001/2002. The number of TDOC inmates possessing an Axis I and/or an Axis II DSM-IV diagnosis housed in TDOC during this period was estimated to be more than 3,200. Psychological staff performed approximately 182 parole evaluations at the request of the Board of Probation.

and Parole, and 4,739 initial classification mental health assessments/evaluations were completed during this time period.

Mental Health Services' expenditures during FY2001-2002 were \$ 9,442,800. This cost is based on the fourth set of preliminary state accounting reports (psychopharmacological costs are included).

PLANNING AND RESEARCH

The Planning and Research division (P&R) provides information, analysis, and research to assist the department's ongoing and future management, operation, and policy initiatives. The division is responsible for providing information and analysis to public and private constituencies regarding developing trends, issues, and correctional policy within the TDOC in the form of numerous monthly (e.g., Female Felon Population Update, Tennessee Jail Report Summary and Tennessee Felon Population Update, quarterly (e.g. Incident Report Summary and Strategic Plan Update), and annual reports (e.g., Title VI Statistical Section, Correctional Officer Turnover Report, and Future Felon Population Report), as well as statistical data and research briefs. The constituents the P&R section assist include the executive and legislative branches of state government, correctional facilities, other TDOC departmental divisions, federal and state agencies, and other organizational and individual entities, including the general public.

P&R coordinates the department's annual report, compiling and organizing relevant information from all institutions and units in central office. In addition to authoring this document, P&R is also responsible for its proofing, printing, and wide distribution.

P&R also coordinates the department's annual planning process, in which the strategic business-planning document is compiled through a multi-stage process. Identifying short and long-term goals and objectives for each of the functional areas of the department (e.g., health services, operations), the strategic planning document becomes the foundation for the budgeting process. The annual felon population projections, which signal the beginning of the planning process, are perhaps the most significant responsibility of P&R. These 10-year projections allow the department to more closely monitor offender trends and to better plan its capital construction. Population projections, projected capacity, and projected unmet demand through June 2011 are indicated on page 42.

One of P&R's main research responsibilities is handling and processing all research proposals submitted from within and outside TDOC, including review, screening, approval, and monitoring of all research projects conducted in TDOC facilities. Additionally, P&R conducts its own research projects. P&R is currently working with the Vanderbilt Institute for Policy and Planning Studies on an evaluation of correction officer training, as well as analyzing data on the level of trust and stress of correctional officers in TDOC institutions.

The departmental policy coordinator is responsible for conducting the policy review and development process, as well as policy distribution and uploading of policies onto network servers. Monitoring services are provided as a part of the policy process, and include TDOC and Corrections Corporation of America policy development, review, and distribution, as well as publication of the TDOC Policy Handbook. A variety of monthly reports are provided for documentation of central office accreditation compliance process. A majority of the surveys TDOC receives are tracked and compiled on a regular basis by the policy coordinator.

DEPUTY COMMISSIONER'S DIVISION

PROGRAM PLANNING

The Program Planning division is responsible for special projects, program development, and project management associated with the department's long-range plans. This division's staff of three reports to the Deputy Commissioner and works in conjunction with TDOC administration, directors, Planning and Research, and institutional personnel. Typical projects include:

- Program plans and design guidelines for new prison construction
- Coordinating technical assistance programs with the National Institute of Corrections
- Impact and procedural documents for program expansions and additions
- Research and technological summaries
- Technical documents prepared for the Select Oversight Committee on Corrections
- Compliance with federal grant programs
- Data collection and analysis, and
- Various special projects relative to improving operational procedures within the department.

TENNESSEE CORRECTION ACADEMY

The Tennessee Correction Academy provides continuing job-based professional development skills to both newly hired and in-service personnel. In order to accomplish its mission, the academy actively pursues three principle-driven objectives:

1. Implement a targeted training system
2. Operate in a quality environment
3. Establish professional development as a clear organizational priority.

FY2001/2002 earmarked the successful completion of the first full fiscal year of program delivery since the expansion of basic training for correctional officers to six weeks (240 hours). This endeavor, coupled with the Academy's initiative in establishing an on-going Field Training Officer program at each institution, has led to substantial, measurable reductions in job turnover rates. Correctional Officer vacancies caused by turn-over, which hovered near the 200 mark at the beginning of the year, fell to the lowest vacancy rate since 1995 by year's end. In addition to the Academy's strategic role in improving job retention rates, other achievements realized during the year include the following:

1. Delivered numerous, targeted specialty training schools, including basic training for Correctional Emergency Response Teams, Locksmithing School, Leadership Development Programs, Hostage Negotiators training, as well as certification programs in Critical Incident Stress Debriefing, Basic Trauma Life Support, and Electronic Restraint Device training.
2. Implemented an almost completely interactive, activity-based in-service training curriculum for all Correctional Officers and Corporals.
3. Established a Distance Learning Center (scheduled to be operational in 2002/2003) for the delivery of selected training programs state-wide at minimal cost.
4. Developed and distributed cost-effective training programs in CD-ROM format in Management Responsibility Systems, AIDS, and Title VI.

DEPUTY COMMISSIONER'S DIVISION

5. Established an on-going "class project" initiative for all basic training program participants, allowing for construction of an obstacle course and numerous facility improvement projects completed with donated labor.
6. Trained nearly 1,600 personnel "off-site", i.e., at institutions, field offices, and central office. Examples of programs delivered were Personal Computer Program Applications, Employee Retention Strategies, Our Public Image, and Taser Training.

For the coming year, plans are being finalized for:

1. Implementation of the distance learning, tele-training initiative.
2. Delivery of new specialty programs such as Advanced Locksmith School, Group Counseling Skills Development, Two-Way Radio Repair and Communications School, a certified Armorer School, and Staff-Inmate Sexual Misconduct Program.

Training program oversight and approval mechanisms for the academy continued under the leadership and guidance of the Tennessee Department of Correction's Training Advisory Committee.

ADMINISTRATIVE SERVICES

SECTION III DIVISION OF ADMINISTRATIVE SERVICES

BUDGET

The mission of the budget division is to assist the institutions and program directors in the submission, development, and management of the department's operating budget. This division monitors and authorizes expenditures from the department's operating funds and monitors and revises the department's projected revenue collections. Additionally, this division calculates the fiscal impact to the department of proposed legislation and serves as a liaison between the department's wardens and directors and the Department of Finance and Administration's budget division.

The department's total operating budget for FY2001/2002 was \$504,307,300. Improvements for this operating budget totaled \$14,635,500 for prison bed expansions, increased felon population, and other operating requirements.

The department's actual expenditures were \$449,708,900, or approximately 11% under budget. As a result of operating efficiencies and improvements, the department saved substantial tax dollars and reverted \$17.8 million to the State General Fund.

ADMINISTRATIVE SERVICES

ADMINISTRATIVE SERVICES

CENTRAL MAINTENANCE

Central Maintenance provides the TDOC institutions in Davidson County with the required maintenance support to keep facilities operational. This division is formed by a core of building trades specialists and headed by a facility management team. Each facility utilizes inmate labor to provide general facility upkeep, including tasks such as changing light bulbs, making minor plumbing repairs, and other routine maintenance.

The complex and unique nature of each of the four Davidson County facilities poses special challenges for a maintenance group. Central Maintenance services facilities which vary from approximately forty years old to newly constructed, providing services twenty-four hours a day, seven days a week, 365 days a year as required. Servicing heating and cooling systems, mechanical services, commercial appliances, and electrical systems calls for employees of this section to work in all kinds of weather and locations.

The Davidson County garden and central landscape operation is also operated under the direction of the Central Maintenance Department. The garden is operated on TDOC property adjacent to the DSNF site and contributes fresh seasonal produce as a supplement to the daily meals of all central region facilities. Landscape, mowing, and centralized recycling services are provided to all TDOC Davidson County facilities as a cost saving measure.

CENTRAL PROCUREMENT

In the past, TDOC's purchasing was done via a decentralized system in which the responsibility and authority required for purchasing was delegated to the individual facilities. In July 1997, centralized procurement was established for the middle Tennessee institutions, and the procurement officers from Davidson County facilities were transferred to central office to perform these functions. Procurement staff are assigned by commodity groups as opposed to purchasing everything for each facility. This system creates the opportunity for staff to compare their assigned commodities among the facilities and has helped to establish central contracts for purchasing leverage.

Central Procurement's main responsibilities include:

- Serving as TDOC's liaison between General Services Purchasing Division and all TDOC correctional facilities.
- Developing, implementing, and evaluating internal policies and procedures regarding TDOC purchasing, and ensuring that TDOC follows the General Services purchasing procedures and regulations governing state purchasing.
- Purchasing goods and services for all Davidson County facilities and central office.
- Processing all paperwork pertaining to the procurement of goods and services for Management Information Services/Integrated Technology Services section.
- Reviewing commodities for establishment of statewide contracts for all TDOC facilities.
- Standardizing commodities purchased by TDOC facilities. Standardization teams are in place to review, revise, and determine which commodities are beneficial for TDOC to use.

An Electronic Procurement Request has been developed for TDOC for procuring commodities. Middle Tennessee Davidson County facilities were the first on-line to use the electronic procurement request. As of July 1, 2002, all facilities are now on-line using the Electronic Procurement request.

CONTRACT ADMINISTRATION

The Contract Administration section writes contracts, requests for proposals (RFP), and purchase authorizations to assist institutions and central office administrators to procure personal services, professional services, and consultant services vital to the mission of the department. In an era of entrepreneurial government, service contracting is crucial in protecting taxpayers' interests while achieving the state's resource development and service delivery goals. The Contract Administration section is responsible for ensuring that the department complies with the statutes, rules, and policies applicable to the service procurement and contracting processes. It serves as a single point of contact between TDOC and the Department of Finance and Administration, Office of Contracts Review.

During FY2001/2002, the department negotiated a new contract with Corrections Corporation of America for management of the South Central Correctional Center. Amendments to the "Private Prison Contracting Act" required the development of objective performance and cost criteria for inclusion in the pro forma contract in the RFP. The performance criteria are designed to measure the quality of security and control, inmate care, institution safety and physical plant conditions, and institution administration. Contract renewal is contingent upon the contractor providing essentially the same quality of services as the state at a cost 5% lower than the state or the contractor providing services superior in quality to those provided by the state at essentially the same cost.

For FY2001/2002, the Department of Correction had total contract maximum liabilities amounting to \$136,381,265. Maximum liabilities represent estimated expenditures authorized under contracts and do not necessarily represent actual expenses incurred. The following table shows the relative value of TDOC contracts by general category of service. The increase in the cost of medical contracts compared with prior year is attributable to the inclusion of prescription medications and some services previously performed by state employees in the primary health services contract.

Table 6: CONTRACT LIABILITIES FY2001/2002

| Service Category | Maximum Liability | % of Total |
|--------------------------|----------------------|---------------|
| Private Prison Operation | \$52,526,147 | 38.5% |
| County Jails | 47,024,575 | 34.5% |
| Medical | 32,689,936 | 24.0% |
| Mental Health | 3,053,965 | 2.2% |
| Other | 1,086,642 | 0.8% |
| TOTAL | \$136,381,265 | 100.0% |

ADMINISTRATIVE SERVICES

ENERGY MANAGEMENT & FACILITY SAFETY COMPLIANCE

Energy Management & Facility Safety Compliance provides technical information and assistance to TDOC's institutional energy coordinators and facility safety officers in their efforts to reduce energy consumption and improve the efficiency of existing HVAC and related mechanical and electric systems, as well as in the area of institutional safety. Assistance is also provided by conducting lighting, noise, and ventilation testing to help institutions maintain their ACA accreditation status.

Currently, TDOC institutions are in the process of installing more efficient lighting, engaging in TVA-assisted geothermal and laundry pilot projects, and following EPA "Energy Star" and "Climate Wise" energy reduction guidelines to meet the Governor's 30% energy savings challenge. The next phase involves "building tune-up", which upgrades and re-commissions existing energy management systems with the potential interconnection of systems on the state network or Internet to allow central monitoring of institutional energy use.

The department continues to meet and/or exceed the Governor's challenge to reduce energy costs.

ENGINEERING SERVICES

The Engineering Services section forms an administrative bridge between institutional managers and the architects, engineers, and contractors providing services at the institutions. This section prepares maintenance budgets, new construction programs, cost proposals, and maintenance policies. Engineers review construction plans, specifications, and completed work, as well as investigate new building sites and designs. In addition, the staff serve as liaisons between the department, F&A's Capital Project Management division, and the State Building Commission.

Although several maintenance items were begun, no significant projects have been completed this year for the engineering, planning, and technical staff.

FISCAL SERVICES

Fiscal Services' mission is to support TDOC administration and operations, and to ensure fiscal accountability throughout the department. The division provides technical assistance to the field in all areas of fiscal management (financial reporting and all aspects of accounting, purchasing, payroll, property management, inmate trust fund, commissary, and inventory control). Fiscal Services participates in the development of policies and procedures designed to maximize resources and eliminate fraud and waste. Staff develop training workshops to keep TDOC fiscal staff informed and facilitate continuous improvement by the department. Fiscal Services is the liaison between TDOC and the Department of Finance and Administration, General Services, and the Comptroller of the Treasury for fiscal management responsibilities, and staff work with these agencies to ensure compliance with state laws and regulations. Fiscal Services strives for departmental recognition as an exceptional organization in the area of fiscal management.

ADMINISTRATIVE SERVICES

JUDICIAL EXPENSE AND CRIMINAL COST ACCOUNTING

The Judicial Expense and Criminal Cost Accounting division works with county officials to ensure that they are reimbursed for housing felons. There are several conditions under which the state is liable for costs of housing felons:

1. Felons sentenced to serve their time in the local jail. (Tennessee Code Annotated permits judges to sentence felons to serve their time locally in certain circumstances.)
2. Counties may contract with the state to house felons sentenced to the Department of Correction.
3. The state reimburses counties for housing felons who have been sentenced to the Department of Correction and are awaiting transfer.
4. Court costs associated with felony charges, transporting inmates, extradition, witness fees, jury boarding, and emergency medical expenses.

The funded appropriation for FY2001/2002 was \$111,343,400.

MANAGEMENT INFORMATION SERVICES

Management Information Services (MIS) provides computerized information reporting and technical assistance in the design and development of computerized systems and archived records. MIS is striving to strengthen itself as a service-oriented organization. MIS maintains the data system for and designs and runs reports regarding all records of offenders who have been in the state's correctional system.

MIS is divided into four functional areas, Systems Development Services (SDS), Operational Support Services (OSS), Integrated Technology Services (ITS), and Technical Support Services (TSS).

Systems Development Services (SDS) provides support and maintenance for the Tennessee Offender Management Information System (TOMIS), as well as development support for the department's perpetual inventory and electronic procurement systems. Enhancements to TOMIS that facilitate its operation, sharing of data at both the state and local levels, and collection of offender data prior to admission to the department consumes the majority of SDS resources. SDS staff works closely with the Systems Development Support staff of the Office for Information Resources, which provides approximately 15,000 hours of programming support for TOMIS annually. Systems Development Services plans for use of approximately 80,000 hours of the state's mainframe computer a year. SDS has been instrumental in the development of the department's Internet and Intranet presence. In FY2001-2002, SDS provided support via phone to 6,000 callers, prepared 37 Systems Investigation Requests (SIRS), and completed 20 SIRS. SDS also responded to over 30,000 E-mail requests and 6,000 fax requests during the past fiscal year. SDS successfully completed a graphical user interface pilot project that reengineered 35 TOMIS screens and completed a major module design change to TOMIS.

Operational Support Services (OSS) is responsible for microfilming offender records, maintaining archived medical and institutional records, distributing computer generated reports, and maintaining the electronic fingerprint system. The production section is responsible for scanning and indexing all active and inactive offender records. The records section processes in excess of 400,000 pieces of mail each year, in addition to approximately 2,800 requests for offender file records each month. In addition, they process requests for offender medical records in the same volume as inmate file requests. The records section manages warehousing archived medical and institutional records at the Tennessee State Penitentiary. Presently, there are more than 12,000,000 documents housed at

ADMINISTRATIVE SERVICES

this site. OSS archives records of offenders who are released at expiration of sentence, are deceased, or have been on parole for more than two years.

Integrated Technology Services (ITS) is responsible for the repair and preventive maintenance of security electronic systems, including fence detection systems, locking control panels, alarm annunciation panels, closed circuit TV, paging and intercom systems, and mobile mapping systems. ITS is also responsible for the installation and maintenance of network and desktop hardware and software for all TDOC facilities.

Technical Support Services (TSS) provides desktop hardware and software support assistance to users in the central office. They define technical specifications for required equipment and software, and place, track, receive, and install orders. On average, the staff handles 200 requests for assistance each month through e-mail or verbal requests. The group also maintains and updates the Victim Offender Information Caller Emissary (VOICE), a system designed to allow registered victims to retrieve selected automated offender information from TOMIS via telephone. TSS is responsible for support of the Department's video conference equipment throughout its facilities.

PERSONNEL

Personnel provides technical assistance and advice, ensures compliance with Civil Service rules, EEOC/Affirmative Action, state laws, and policies. This section also implements and monitors personnel related programs such as employee benefits, including employee assistance, family medical leave, and accommodations under the Americans with Disabilities Act. Personnel pursued the following programs and initiatives in FY2001/2002:

- Equity increase for food service employees based on years of service
- Upgrade of positions responsible for the institutional records office
- Equity increases for physician's assistants
- Continue to work with DOP on upgrading RNs and LPNs
- Redesigned exit surveys
- Redesigned and implemented a new interview process format
- Maintenance of a toll-free recruitment line for job applicants
- Completed an in-depth study of correctional officer retention in conjunction with Vanderbilt and Marquette Universities
- Planned retention and recruitment study with the National Institute of Correction
- Designed a new ad campaign for recruitment
- Continued to work with MIS on establishing a departmental intranet
- Continued to interact with Nashville Chamber of Commerce and area corporate personnel directors to establish personnel workshops
- Continued relationships with the American Correctional Association by speaking on panels at National Conferences
- Concluded spring Personnel Conference for Department of Correction

Recruiting Efforts are as follows:

- ♦ Ft. Campbell Job Fair - encourage soldiers exiting the Army to apply for correctional officer and other positions.

ADMINISTRATIVE SERVICES

- ♦ TSU Job Fair - recruiting nurses and LPNs
- ♦ Internet - jobs and ads posted on the following web sites:
 - Tennessean Ads (www.tennessean.com)
 - Hot Jobs (www.hotjobs.com)
 - TDOC Home Page (www.state.tn.us/corrections)
 - Career Builder (www.careerbuilder.com)

SECTION IV DIVISION OF OPERATIONS

PROGRAMS

Program areas listed below are part of Operations. Program staff in each of these areas provide overall support to central office and the facilities on a day-to-day basis.

- Classification/Sentence Management Services
- Community Work Programs
- Education
- Inmate Grievances/Disciplinary Appeals
- Inmate Jobs
- Substance Abuse Programs
- Security Services
- Volunteer Services

All TDOC facilities and the commissioner's designees for privately managed facilities are also included in this division.

PROGRAMS - CLASSIFICATION

The Classification section is responsible for two significant areas: Inmate Classification and Sentence Management. Classification is responsible for the implementation and maintenance of the system which manages the progression of inmates through the levels of custody/risk from the point of intake into TDOC custody through the period of their incarceration.

The classification process evaluates current and past information about inmates which aids in making appropriate recommendations concerning levels of supervision (custody) and programs. A major objective is to involve inmates in programs consistent with the safety and protection of the public, TDOC staff, and other inmates. Emphasis is given to custody and security, i.e., necessary levels of supervision as determined from the recency, severity, and frequency of an individual's institutional conduct and criminal conviction history. The process of evaluation occurs continually throughout an inmate's period of incarceration, and is managed at the institutional level by correctional classification coordinators.

OPERATIONS

Classification is also responsible for ensuring that the inmate population levels of the institutions do not exceed capacity limits. This is accomplished by authorizing admissions of inmates to the department's reception centers from county jails on a daily basis contingent upon available capacity. Further, the division monitors and approves, on the basis of population levels, inter-institutional transfers of inmates.

Table 16: Inmate Population by Custody Level—June 30, 2002

| CUSTODY LEVEL | NUMBER OF OFFENDERS | PERCENT OF TOTAL |
|---------------|---------------------|------------------|
| Maximum | 817 | 4.7% |
| Close | 440 | 2.5% |
| Medium | 12,045 | 69.1% |
| Minimum | 3,327 | 19.1% |
| Unclassified | 794 | 4.6% |
| TOTAL | 17,423 | 100.0% |

SENTENCE MANAGEMENT SERVICES

Sentence Management Services (SMS) provides sentence management information, computes all felony sentences, and monitors and reports release dates and eligibility dates to The Board of Probation and Parole in order to produce eligibility dockets. SMS has two divisions. The two divisions are Sentence Computation Services (SCS) and Sentence Information Services (SIS).

Sentence Computation Services (SCS) carries out the department's responsibility to compute and maintain the release eligibility dates and expiration dates for all felony offenders in Tennessee, regardless of their place of confinement. Sentence information and expiration dates are also maintained for all offenders whose sentences are suspended to probation. The number of persons being sentenced by Tennessee criminal and circuit courts has continued to increase year by year. Changes in process of work flow and intense commitment to work has eliminated previous backlogs of judgment orders and keeps SCS current in entry of judgment orders. SCS will continue to improve its organizational process every year to increase its efficiency.

Sentence Information Services (SIS) continues to provide sentence calculation training and programmatic direction for institutional record clerks, institutional unit management staff, and Sentence Management Services staff. SIS also provides research in the areas of sentence calculation, sentence credits earned or removed, eligibility for parole, and the verification of expiration of sentences for all incarcerated felons. SIS responds to numerous requests for sentence information received from attorneys, offender family members, law enforcement agencies, and other TDOC divisions.

PROGRAMS - EDUCATION

The TDOC operates as a State Special School District and fully complies with the Department of Education's Minimum Rules and Regulations for the Governance of Schools. Departmental policies govern the institutions' academic and vocational education program for inmates, including program accreditation, staff certification, and coordination with other institutional programs and services as well as the community. The department employs 52 academic instructors, 63 vocational instructors, 7 principals, 7 teacher's assistants, and 44 correctional clerical officers in support of educational programs and library operations.

TDOC routinely assigns inmates under twenty-one (21) years of age and those without a verified high school diploma or GED to educational programs.

Academic programs include Adult Basic Education for GED preparation. Inmates may participate in college level classes via correspondence courses at their own expense and with the approval of the warden.

Vocational programs include automotive mechanical technology, barbering, building maintenance, cabinet-making and millwork, carpentry, culinary arts, industrial cleaning, computer repair, cosmetology, electrical/mechanical, heating/air conditioning/refrigeration, industrial maintenance, interior development and finishing, interior and exterior landscaping, masonry, office technology, personal computing, plumbing, graphic arts, residential construction technology 1 & 2, residential electricity, shoe repair service, upholstery service, and welding.

*HCCF and SCCF's vocational programs are administered through Pontiac Business Institute (approved by Tennessee Higher Education Commission) rather than frameworks of the Tennessee Department of Education. The programs are typically 16 weeks in length, thus the higher

PROGRAMS - INMATE GRIEVANCES/DISCIPLINARY APPEALS

A grievance is defined as a written complaint concerning the substance or application of a written or unwritten policy or practice, any single behavior or action toward an inmate by staff or other inmates, or any condition or incident within the department or institution which personally affects the inmate complainant.

The U.S. Department of Justice has certified the TDOC inmate grievance procedures. There are three levels of the grievance process, two of which occur at the institutional level. An executive administrative assistant to the commissioner handles the third level of the process. Approximately 150 grievances per week are handled at level three, with responses sent within 25 working days. Responses to grievances concerning health services, food services, TRICOR, and jobs/education are drafted by the appropriate director and returned to the executive administrative assistant for final review.

Inmates have one calendar year to file a civil suit from the date of receipt of the final level three response to the grievance.

PROGRAMS - INMATE JOBS

An inmate job is defined as a program assignment for which an inmate is paid and/or is evaluated for program sentence credits. A program assignment includes work, academic and vocational classes, social services programs and mental health programs. The purpose of the inmate jobs program is to reduce idleness, to provide meaningful jobs and training, and to provide a system for job advancement. Uniform procedures have been established for assigning inmates to institutional jobs. Reduced inmate idleness promotes stability within an institution. Uniform procedures have been established for assigning inmates to institutional jobs.

Inmates may request placement on registers for a job assignment. They are tentatively determined to be eligible and qualified before they are approved for register placement. Job assignments are primarily based on seniority on the register. Inmates without a high school diploma or GED are not routinely promoted to jobs above semi-skilled level.

Inmates are not permitted to refuse or quit an assignment, with the exception of those assigned to a Prison Industries Enhancement (PIE) program or to certain mental health treatment programs. There are two types of job assignment terminations; i.e., disciplinary and non-disciplinary. Sanctions are attached to disciplinary terminations.

The Inmate Jobs Specialist is responsible for the coordination of the day-to-day departmental operation of the inmate jobs program. This includes policy development, monitoring, training for inmate job coordinators, assisting with development of TOMIS applications for inmate jobs, providing technical assistance to institutional and central office staff, approving requests for changes in the inmate worker pattern, preparing reports and performing audits. An inmate job coordinator is at each institution.

OPERATIONS

Table 20: INMATE EMPLOYMENT - JUNE 2002

| INMATE EMPLOYMENT JUNE 2002 | | |

| TOTAL INMATES | 17,423 | 100% |

* Inmates who can not be assigned due to their status which may include those in segregation or classification, and those with medical disabilities.

PROGRAMS – SUBSTANCE ABUSE PROGRAM

The goal of the Substance Abuse Program is to provide a continuum of cost-effective substance abuse treatment and programming services for incarcerated felons who have a history of being alcohol or drug dependent.

Because of the need to provide treatment services to a heterogeneous population, a range of treatment programs designed for varying levels of need and motivation have been incorporated. Programming services include drug awareness, addiction and recovery education, group counseling, therapeutic community, and transitional release services.

Table 21: TDOC SUBSTANCE ABUSE DELIVERY SYSTEM SERVICES

| MODALITY | DESCRIPTION | CLIENT CHARACTERISTICS | LENGTH OF STAY |
|--|--|--|--|
| DRUG AWARENESS All TDOC Facilities | Generally once per week, after work hours or on weekends. Group discussion and lecture format. Can be instructed by any employee trained to facilitate current Drug Awareness Curriculum. This is not a treatment program. | Used as a sanction for inmates who test positive on a drug screen. Group size: unlimited, determined by seating capacity | Short duration, 30-40 hrs. of classroom instruction. |
| ADDICTION AND RECOVERY EDUCATION All TDOC Facilities | Commonly once or twice per week. Lectures format, classroom setting. Can be instructed by any employee trained to facilitate current Addiction and Recovery Education Curriculum. This is a pre-treatment program. Federal confidentiality laws do not protect inmates who are enrolled in Addiction and Recovery. | Inmates who are not ready for treatment services. Inmates who are not heavily addicted and are in need of pre-treatment or prevention services. Group size: 20-30 per session. | Varies, generally 26 hours of classroom instruction. |
| GROUP COUNSELING All Time Building Facilities | Generally, conducted twice per week. Group sessions are 120 minutes in length. Participants are given homework assignments or out of group activities. Role-play, individual presentations, and situational exercises are required to assist in skill development. Group counseling can only be facilitated by a substance abuse treatment counselor. A plan of treatment is required. Program participant information is protected by federal confidentiality laws. A signed release of information is required prior to acceptance into the program. | Appropriate for inmates who have substantial drug histories or who have completed a therapeutic community program. Group size: 20-25 for large group discussion and 10-15 for small process group sessions. | Generally, 3–6 months. |
| THERAPEUTIC COMMUNITY (TPW, MLCC, BMCX, NWCX) | Long term 24 hrs. a day designed to impart new behaviors and attitudes. Peer hierarchy and reinforcement. Federal confidentiality laws protect all program information. | Inmates with long histories of substance abuse and antisocial behaviors. | Generally, 6–12 months. |
| TRANSITIONAL RELEASE (MTCX, BMCX, TPW) | Short or long term pre-release program utilizing relapse prevention strategies; may include work release or community service. | Inmates completing a TC or Cognitive Interventions program, parole violators, or person convicted for a positive drug screen. | Generally, 6-24 months. |

OPERATIONS

DRUG TESTING

All inmates incarcerated in Tennessee Department of Correction institutions are subject to random drug testing. Using a computer generated list, ten percent of each institution's in-house population is randomly drug tested each month. Inmates are tested for several different drugs that are commonly used by the population being tested.

MONTHLY RANDOM DRUG TEST RESULTS—TDOC JULY 2001—JUNE 2002

| | NUMBER | | | FY 2002 | FY 2001 |
|--------------|---------------|------------|------------|------------|------------|
| MONTH | TESTED | REFUSED | POSITIVE | % POSITIVE | % POSITIVE |
| July | 1,472 | 12 | 64 | 5% | 5% |
| Aug | 1,517 | 24 | 84 | 7% | 5% |
| Sept | 1,489 | 18 | 56 | 5% | 5% |
| Oct | 1,488 | 18 | 52 | 5% | 5% |

| TOTAL | 17,624 | 132 | 553 | 4% | 4% |

PROGRAMS - SECURITY SERVICES

The Security Services section, working under the auspices of the Assistant Commissioner of Operations, is responsible for monitoring TDOC security systems and evaluating institutional security issues. The primary responsibilities of this division include developing policies, procedures, and practices related to institutional security issues. Security Services conducts on-site audits of institutional security practices and procedures, compiling and evaluating information on trends and changes in technology that may impact or improve TDOC security functioning, and serves as a general resource for issues related to correctional security. Security Services works with the institutions to address issues of non-compliance during annual inspections, monitors the maintenance and control of armory and CERT team equipment, and maintains a knowledge and network of relationships with other criminal justice agencies to facilitate the sharing of information that may benefit the TDOC.

PROGRAMS - VOLUNTEER SERVICES

The Volunteer Services section is responsible for developing and implementing volunteer programs for offenders, members of the inmate's family, and the Tennessee Department of Correction (TDOC) staff. The volunteers are recruited from within the community to supplement services the state offers. The talents volunteers provide include personal counseling, tutoring in basic literacy and GED preparation, sponsoring birthday parties, offering religious instruction/services, and more.

A staff member in each institution is assigned the task of working with the volunteers at each site. The local volunteer coordinator recruits and trains volunteers according to each institution's specific needs. Training includes a standardized orientation to policies and procedures, with specialized instruction to meet the needs of the volunteer program at a particular location.

Each institution organizes a local Community Resource Board to oversee management of the volunteer program and community relations. The local boards are made up of community leaders, church groups, and civic organizations. These working board members, actually volunteers, assist in recruiting, fund raising, and volunteer program supervision. Board members serve as advocates for the program in their community.

The local boards are represented on a state-wide level by the Tennessee Community Resource Board (TCRB). This board, composed of individuals with diverse backgrounds, is made up of 15 members approved by the Commissioner of Correction and the Chairman of the Board of Probation and Parole. Membership includes five representatives each from the west, middle, and east regions of Tennessee. Each member has served in a volunteer capacity for offenders or worked in the criminal justice system. The TCRB meets once a year with the commissioner and chairman to focus on volunteer issues and the needs of staff, offender families, and local Community Resource Boards.

Annually, the volunteer network saves the state an average of more than 1.4 million dollars by providing services not offered by the department.

OPERATIONS

SECURITY THREAT GROUP MANAGEMENT

The Security Threat Group (STG) Management function is an integral component of the Division of Operations. STG management encompasses the identification, monitoring, and tracking of confirmed STG members and affiliates throughout their incarceration. In 1999, a position was created within the Division of Operations for a Security Threat Group Coordinator. The primary responsibility of the STG Coordinator is to assess and disseminate gang intelligence within the TDOC and other law enforcement agencies.

There are institutional STG coordinators designated at every TDOC facility and private facility that houses TDOC inmates. The institutional STG coordinators identify and monitor STG inmates and activity within the institutions. Currently, there are approximately 1,700 confirmed STG members and 1,500 suspect STG members within the TDOC. The Tennessee Offender Management Information System (TOMIS) provides the STG team with the ability to instantly access STG intelligence and other vital information on inmates.

In FY 2000/2001, two departmental policies (STG Intelligence and STG Program Procedures) were drafted and implemented to address STG activity within the department. At the Southeastern TN State Regional Correctional Facility, the TDOC implemented an STG program that consists of three phases, each lasting approximately 90 to 120 days, utilizing cognitive behavior modules that are designed to sever the inmate's dependence/reliance on the gang. Currently, there are approximately 100 inmates assigned to this program.

The STG Coordinator also works closely with the wardens, institutional staff, and the correctional emergency management team (CERT) in an ongoing effort to identify and develop STG information on inmates throughout the department.

PRE-RELEASE AND TRANSITION SERVICES

On November 1, 2001, the position of Director of Pre-release and Transition Services was created to enhance the department's existing pre-release program. Extensive emphasis has recently been placed on preparing inmates for reentry into society and involving the community in the transition process.

The U.S. Department of Justice awarded the TDOC, in partnership with the Board of Probation and Parole, \$1,064,000 to develop a three year reentry program targeting serious and violent offenders. The pilot project will target 300 offenders who are determined to be at high risk to recidivate.

The proposal is divided into three phases, with the first being an intensive treatment program while still in TDOC custody. Phase two and three deal with reentry and stabilization. These phases will have enhanced parole supervision and each inmate will be assigned a case manager to assist with community transition. The goal of the proposal is to reduce recidivism rates, thereby increasing public safety.

**SECTION V
DATA
AND
STATISTICS**

The following pages represent statistical information concerning TDOC's stock population as of June 30, 2002, admissions into the TDOC system, and releases from the TDOC system.

Readers of this report should note the following:

- Primary offense: As of July 2000, offenses were categorized according to the Tennessee Incident Based Reporting System (TIBRS), which is based on the FBI's National Incident Based Reporting System (NIBRS). This system of reporting standardizes categorical offense reporting across criminal justice agencies both within the state and nationally. For more detail on how TCA code is categorized according to the TIBRS system, see the TBI website at <http://www.tbi.state.tn.us/tca.htm> or the TDOC Research Brief, "Assessing the Impact of the TIBRS on TDOC Criminal Offense Reporting," available online at <http://www.state.tn.us/correction/planning/researchbrief.html>.

DATA AND STATISTICS

- The data presented in this section are based on information drawn from several units within the Department of Correction. Due to the fact that TOMIS is a dynamic database and information is constantly being added and/or modified, some data in comparable tables may not match exactly.
- Sentenced imposed information is relevant to **admissions** during the year, while time served information is relevant to **releases** during the year. A common tendency is to correlate this information, which is a misinterpretation of the data. Readers should keep this distinction in mind. The data do not pertain to the same groups of offenders.
- There are occasionally discrepancies between population totals presented in different tables. These discrepancies are most commonly attributable to the fact that data may be drawn from different sources (e.g. custody level counts are taken from the daily pop count sheets rather than the Tennessee Offender Management Information System data base), missing data, or that data is drawn at different points in time. Because TOMIS is not a static database, with admissions, releases, and movements constantly occurring, data drawn at different points in time may reflect changes that have occurred between those dates of data extraction.
- In certain cases, average time served (especially in the releases from local jail or backup categories) will appear to the reader to be incongruent with the offense. In such cases, the small number of individuals presented left TDOC for another jurisdiction during the period in question.
- Additional data-based information is available on our website: www.state.tn.us/correction/planning/planning.html.
